SKILLS

Methodology:
SDLC, Agile, Waterfall

Languages:
C++, Java, SQL

Frameworks/Libraries:
Spring MVC, Spring Boot, Hibernate, Angular, Node.js

IDE's:
IntelliJ IDEA, Eclipse

J2EE Technologies:
Servlets, JSP, JSTL, JavaBeans, JDBC

Web Technologies:
HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, XML

Application Server:
Apache Tomcat, WebSphere

Database:
MySQL, PostgreSQL, MongoDB

Other tools:
Jira, Maven, Swagger, Postman, Junit, Power Mock

Version Control Tools:
Git, GitHub

Operating Systems:
Windows, Linux

EDUCATION

Post-Graduate Certificate in Software Engineering Technician (Sep 2020- Aug 2022)
Centennial College, Toronto, ON

Bachelor in software engineering (July 2014- May 2018)
Gujarat Technological University, Gujarat, India

CERTIFICATE

Cloud Computing with AWS-Intern Shala
Result-oriented Web developer Course – Udemy

SUMMARY

- 3+ years of experience as a Software Developer working in Software Analysis, Design, Development, Implementation, and Testing of Object-Oriented Applications and Web based Enterprise Applications.
- Proficiency in the Software Development Life Cycle (SDLC), Agile, Scrum, and Waterfall.
- Hand-on experience in debugging and developing applications in Single Page using various JavaScript frameworks such as Angular and ReactJS.
- Capable of developing Java-based applications using Servlets, JSP, JSTL, JavaBeans, and JDBC.
- Proficient in developing web pages quickly and effectively using HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, and XML.
- Working knowledge of database designing with MySQL, PostgreSQL, and MongoDB.
- Good understanding of Shell scripting, Microservices, Docker, Jenkins, CI/CD pipelines, and cloud services platforms like AWS and GCP.
- Ability to configure Git and communicate with the repositories in GitHub.

EXPERIENCE

GetMeHired.co, Toronto, Canada | Feb 2023 – Current| Java Full Stack Developer
- Involve in Requirement gathering, Analysis, Design, Development, and Testing of applications using Agile methodology (SCRUM) in a test-driven development (TDD) approach to build software using Java and Spring Boot framework.
- Developing Java-based web applications and APIs using Spring boot, Hibernate, MongoDB and secured them using Spring Security.
- Worked with Angular framework, Controllers, Directives, Services, and filters to build attractive UI.
- Deployed and monitoring projects into the AWS cloud platform and utilized services such as EC2, Beanstalk, AWS Lambda, RDS, and S3 bucket.

Viaan Technology, India | Oct 2018 - Nov 2019 | Web Developer
- Developed an E-commerce Web application and maintained using the CakePHP framework.
- Closely worked with HTML, CSS, Bootstrap, jQuery, and JavaScript to develop an attractive user interface.
- Used MYSQL to process and store the data.
- Built RESTful APIs to communicate Backend and Frontend applications.

Aarth Technology, India | Jan 2018 – June 2018 | Android Developer - Intern
- Developed a Social-service Mobile application using Java.
- Worked with the MySQL Database to store the User data and used Firebase for Authentication.
- Implemented Unit test cases and analyzed test results.
- Integrated with systems over REST.
